Subject: Microsoft Settlement

To Whom it May Concern,

I wish to express my disappointment in the proposed settlement with Microsoft. I do not believe the proposed actions will in anyway hinder Microsoft's ability to stifle competition or bullying tactics. If this settlement goes through, all the DOJ will have effectively is waste tax payers time and money. I thought lady justice was supposed to be blind to money or political leverage, apparently not.

I would urge the DOJ to look long and hard at the settlement proposed by the objecting states. Their proposal looks fair and has SOME teeth. It would deter many of Microsoft current practices and help to open the doors of competition.
